Room 9 – Desk setup with vertical wooden slats and window.

Room 9 – Central table and clean white walls.

Tenant Spotlight:

At [ITSolutions](#), we know that running a business is about more than just making a profit. It's also about making a difference. As a tenant, knowing that your rent contributes to helping people with sight loss access a talking newspaper app on their mobile phones adds a real sense of purpose to what we do. Many of our customers have disabilities, and we see firsthand how vital accessible technology is in their daily lives. Whether it's voice control features, screen readers, or apps designed to keep them connected, mobile devices are an essential tool for independence. That's why it's reassuring to know that by simply running our business, we're helping to support a service that makes news and information more accessible for those who need it most. At ITSolutions, we're always looking for ways to serve our customers better. This month, we're offering 10% off all screen repairs and discounted battery replacements to keep your devices running smoothly. If you or someone you know relies on their phone for accessibility, bring it in, and we'll ensure it's in top condition. It's a great feeling to know that while we're helping our customers stay connected, our rent is also supporting a meaningful cause. If you are a fellow tenant, take pride in the fact that your business is not just growing—it is giving back. For appointments and inquiries, visit our Facebook page or contact us today!

My name is Hannah Gunn and I'm the founder of **Renata Cosmetics**, a business specialising in semi-permanent makeup and fine line tattoo artistry. From expertly shaping brows to delicate, intricate tattoos, my work is all about enhancing natural beauty and helping people feel confident in their own skin.

But Renata Cosmetics is more than just a beauty business. Every appointment booked with me contributes to something bigger. A portion of my tenancy fees directly supports **Cue and Review**, a

Scottish charity dedicated to empowering individuals living with sight loss. Through training, assistive technology, and advocacy, Cue and Review helps people live more independently and confidently—and I'm proud to be part of that mission.

And I'm not alone in this. At **Bishopbriggs Media Centre**, a vibrant community of tenants all play a role in supporting Cue and Review's work. From **TCMF** in the downstairs warehouse and cottage, to **366 TECH LTD** in room 14, each business contributes through their tenancy. Whether it's **KS Barbers**, **Lush Lashes**, **Beaumont Services**, **Hands-On Homecare**, or **IT Solutions**, every rent payment helps fund vital resources and services for those with visual impairments.

Even our local gym, **Jamie McGhee Best Home Improvements**, and creative businesses like **Super Cute Awesome Stuff** and **Sunshine Wishes Children's Charity** are part of this collective effort. Together, we're creating a space where business and social impact go hand in hand.

This shared commitment is also reflected in our **Weather Lottery building appeal**—a fundraising initiative to help maintain and improve our facilities so we can continue offering accessible services to those who need them most. Every ticket bought in the Weather Lottery helps us raise funds for building upgrades, energy efficiency improvements, and better accessibility for visually impaired visitors and volunteers.

So when you choose Renata Cosmetics, you're not just investing in yourself—you're joining a movement that uplifts and transforms lives. Through beauty, tenancy, and community support, we're making empowerment and inclusivity part of everyday business. Contact me at <https://www.facebook.com/hgunndesigns/>

Beauty becomes more than aesthetics—it becomes a way to make a difference.

Ethos of Bishopbriggs Media Centre

- **Inclusive and Accessible**

The centre supports a wide range of tenants, including charities, care providers, and small businesses. Cue and Review's presence reinforces a commitment to supporting people with sight loss and making information accessible.

- **Affordable and Flexible**

Rent is priced to support startups and small organisations. Offers like rent-free part months and half rent in first month show a willingness to help tenants get established.

- **Community-Focused**

The tenant mix includes health, beauty, IT, home improvement, and charitable services. This diversity reflects a centre that values collaboration and local impact.

- **Practical and Professional**

Rooms are secure, clean, and well-maintained. Shared facilities like toilets and kitchen are available, but tenants maintain independence in their own spaces.
